[LinkedIn](#) · [Github](#) · [Portfolio](#)

A computer science student at Kibo School who hopes to become a cyber-security engineer. I'm passionate about building dynamic, scalable web applications and driven to use my result-oriented skills to make a difference.

EXPERIENCE

Computer Science Student

April 2022 - May 2022

Kibo School, Remote

- Developed an open-source web application for poets called [PoetPiece](#) using Flask.
- Built a debating web application called [Talkathon](#) along with two Kibo students using Flask.
- Did yet another awesome thing.

Chiblogger – Web Developer

Jul 2022 - Oct 2022

Volunteer, Remote

- Built a blogging application called [Chiblogger](#) that supports markdown for my aunt using the MERN stack.
- Move Chiblogger from [Heroku](#) to [Render](#) (due to the elimination of free plans).

Software Engineering Intern

April 2022 - May 2022

Revocube, Lagos, Nigeria

- Revamped the landing page of one of the company's products, [Schoolteller.ng](#), using HTML5 and Bootstrap.
- Built the contact page for the same product.
- Completed a drag-and-drop to-do application (given as a task) to solidify my knowledge of React fundamentals.

EDUCATION

Kibo School of Technology

Oct 2022 - Present

Bachelor of Science in Computer Science, Expected July 2025

New York, NY

ALX-Holberton Bootcamp

Jun 2021 - Jul 2022

Software Engineering

Remote
